

Integrated Management System Policy

We at **Doha Industrial Safety Services**, continuously strive to provide Training and Consultancy services which enhances Quality, Environmental, Occupational Health and Safety performance of all our stakeholders including individual and organizations beyond complying with legal & other applicable requirements.

By Providing Training and Consultancy Services, We pledge to Support and Influence all our clients and other stake holders to adopt clean technology throughout the life cycle of their products and services.

We shall achieve our policy by;

- Integrating QHSE requirements in our all Processes, Products and Services.
- Providing Consistent quality of Training and Consultancy services to exceed customer satisfaction.
- Providing safe and healthy work environment by eliminating OHSE hazards and reducing OHSE risks preventing ill-health, Injury, and environmental Pollution.
- Will reduce our health and safety risks and environmental impact whenever possible by setting clear objectives and monitoring our performance.
- We aim to reduce waste and minimize the consumption of natural resources in our process.
- Continuously enhancing the knowledge and competency of our employees to suit them for the changing need and to adopt international best practices in sustainable development.
- Consultation and participation of our employees and other relevant interested parties in establishing, implementing, maintaining, and continually improving QHSE Management system.
- Continually enhancing our QHSE performance by adopting a "lead by example" culture and ensuring our staff adopt the good practice we teach others through our training and consultancy services.
- We will comply with all applicable legal and other requirements as they relate to the management of QHSE at **Doha Industrial Safety Services**.

Doha Industrial Safety Services is committed to implement this policy in letter & spirit and communicate to all relevant interested parties who can be controlled or influenced to enhance our QHSE Performance.
