PASMA Towers for Managers Training

PASMA[®]
PREFABRICATED ACCESS SUPPLIERS' AND MANUFACTURERS' ASSOCIATION

PASMA Towers for Managers will equip you with the specialist knowledge you need to keep your towers accident-free zones.

TARGET AUDIENCE

This course is aimed at people who don't use towers themselves, like site managers, safety professionals, and company directors. It's suitable for anyone who manages or supervises tower operatives, including:

- Those new to managing tower users
- Those who already manage tower users but have never been formally trained
- Those re-taking the course after an earlier qualification expires

COURSE CONTENT

Through a combination of theory and group discussions, you will learn about:

- Work at the height of responsibilities of managers
- Standards affecting the manufacture and use of towers
- Where to find crucial safety information
- When it's safe to use a tower, and when it's not
- Different tower configurations
- Identifying hazards in the work environment
- Risk assessments
- Rescue plans
- Carrying out pre-use checks and post-assembly inspections on towers
- The components used in a mobile access tower
- Good practices for the safe use of mobile access towers
- Behavioral competencies
- Preventing personal health hazards

Assessment Details

- Theory assessment
- Open book
- Written answers & multiple choice
- 80% pass mark
